
Attachment to Module 2

Evaluation Questions and Criteria

Since ICANN was founded 10 years ago as a not-for-profit, multi-stakeholder organization, one of its key mandates has been to promote competition in the domain name market. ICANN's mission specifically calls for the corporation to maintain and build on processes that will ensure competition and consumer interests – without compromising Internet security and stability. This includes the consideration and implementation of new gTLDs. It is ICANN's goal to make the criteria and evaluation as objective as possible.

While new gTLDs are viewed by ICANN as important to fostering choice, innovation and competition in domain registration services, the decision to launch these coming new gTLD application rounds followed a detailed and lengthy consultation process with all constituencies of the global Internet community.

Any public or private sector organization can apply to create and operate a new gTLD. However the process is not like simply registering or buying a second-level domain name. Instead, the application process is to evaluate and select candidates capable of running a registry, a business that manages top level domains such as, for example, .COM or .INFO. Any successful applicant will need to meet published operational and technical criteria in order to preserve Internet stability and interoperability.

I. Principles of the Technical and Financial New gTLD Evaluation Criteria

- Principles of conservatism. This is the first round of what is to be an ongoing process for the introduction of new TLDs, including Internationalized Domain Names. Therefore, the criteria in this round require applicants to provide a thorough and thoughtful analysis of the technical requirements to operate a registry and the proposed business model.
- The criteria and evaluation should be as objective as possible.
 - With that goal in mind, an important objective of the new TLD process is to diversify the namespace, with different registry business models and target audiences. In some cases, criteria that are objective, but that ignore the differences in business models and target audiences of new registries, will tend to make the process exclusionary. For example, the business model for a registry targeted to a small community need not possess the same robustness in funding and technical infrastructure as a registry intending to compete with large gTLDs. Therefore purely objective criteria such as a requirement for a certain amount of cash on hand will not provide for the flexibility to consider different business models. The process must provide for an objective evaluation framework, but allow for adaptation according to the differing models applicants will present. Within that framework, applicant responses will be evaluated against the criteria in light of the proposed model.
 - Therefore the criteria should be flexible: able to scale with the overall business approach, providing that the planned approach is consistent and coherent, and can withstand highs and lows.

- Criteria can be objective in areas of registrant protection, for example:
 - Providing for funds to continue operations in the event of a registry failure.
 - Adherence to data escrow, registry failover, and continuity planning requirements.
- The evaluation must strike the correct balance between establishing the business and technical competence of the applicant to operate a registry (to serve the interests of registrants), while not asking for the detailed sort of information or making the judgment that a venture capitalist would. ICANN is not seeking to certify business success but instead seeks to encourage innovation while providing certain safeguards for registrants.
- New registries must be added in a way that maintains DNS stability and security. Therefore, ICANN asks several questions so that the applicant can demonstrate an understanding of the technical requirements to operate a registry. ICANN will ask the applicant to demonstrate actual operational technical compliance prior to delegation. This is in line with current prerequisites for the delegation of a TLD.
- Registrant protection is emphasized in both the criteria and the scoring. Examples of this include asking the applicant to:
 - Plan for the occurrence of contingencies and registry failure by putting in place financial resources to fund the ongoing resolution of names while a replacement operator is found or extended notice can be given to registrants,
 - Demonstrate a capability to understand and plan for business contingencies to afford some protections through the marketplace,
 - Adhere to DNS stability and security requirements as described in the technical section, and
 - Provide access to the widest variety of services.

II. Aspects of the Questions Asked in the Application and Evaluation Criteria

The technical and financial questions are intended to inform and guide the applicant in aspects of registry start-up and operation. The established registry operator should find the questions straightforward while inexperienced applicants should find them a natural part of planning.

Evaluation and scoring (detailed below) will emphasize:

- How thorough are the answers? Are they well thought through and do they provide a sufficient basis for evaluation?
- Demonstration of the ability to operate and fund the registry on an ongoing basis:
 - Funding sources to support technical operations in a manner that ensures stability and security and supports planned expenses,
 - Resilience and sustainability in the face of ups and downs, anticipation of contingencies,
 - Funding to carry on operations in the event of failure.

- Demonstration that the technical plan will likely deliver on best practices for a registry and identification of aspects that might raise DNS stability and security issues.
- Ensures plan integration, consistency and compatibility (responses to questions are not evaluated individually but in comparison to others):
 - Funding adequately covers technical requirements,
 - Funding covers costs,
 - Risks are identified and addressed, in comparison to other aspects of the plan.

III. Scoring

Evaluation

- The questions, criteria, scoring and evaluation methodology are to be conducted in accordance with the principles described earlier in section I. With that in mind, globally diverse evaluation panelists will staff evaluation panels. The diversity of evaluators and access to experts in all regions of the world will ensure application evaluations take into account cultural, technical and business norms in the regions from which applications originate.
- Evaluation teams will consist of two independent panels. One will evaluate the applications against the financial criteria. The other will evaluate the applications against the technical & operational criteria. Given the requirement that technical and financial planning be well integrated, the panels will work together and coordinate information transfer where necessary. Other relevant experts (e.g., technical, audit, legal, insurance, finance) in pertinent regions will provide advice as required.
- Precautions will be taken to ensure that no member of the Evaluation Teams will have any interest or association that may be viewed as a real or potential conflict of interest with an applicant or application. All members must adhere to the Code of Conduct and Conflict of Interest guidelines that are found in Module 2.
- Communications between the evaluation teams and the applicants will be through an online interface. During the evaluation, evaluators may pose a set of clarifying questions to an applicant, to which the applicant may respond through the interface.

Confidentiality: ICANN will post applications after the close of the application [submission](#) period. The application form notes which parts of the application will be posted.

Scoring

- Responses will be evaluated against each criterion. A score will be assigned according to the scoring schedule linked to each question or set of questions. In several questions, 1 point is the maximum score that may be awarded. In [several other questions](#) [nearly all cases](#), 2 points are awarded for a response that exceeds requirements, 1 point is awarded for a response that meets requirements and 0 points are awarded for a response that fails to meet requirements. Each question must receive at least a score of "1," making each a "pass/fail" question.
- In the Continuity question in the financial section (see Question #50), up to 3 points are awarded if an applicant provides, at the application stage, a financial instrument that will guarantee ongoing registry operations in the event of a business failure. This extra

point can serve to guarantee passing the financial criteria for applicants who score the minimum passing score for each of the individual criteria. The purpose of this weighting is to reward applicants who make early arrangements for the protection of registrants and to accept relatively riskier business plans where registrants are protected.

- There are 21 Technical & Operational questions. Each question has a criterion and scoring associated with it. The scoring for each is 0, 1, or 2 points as described above. One of the questions (IDN implementation) is optional. Other than the optional questions, all Technical & Operational criteria must be scored a 1 or more or the application will fail the evaluation.
- The total technical score must be equal to or greater than 22 for the application to pass. That means the applicant can pass by:
 - Receiving a 1 on all questions, including the optional question, and a 2 on at least one mandatory question; or
 - Receiving a 1 on all questions, excluding the optional question and a 2 on at least two mandatory questions.

This scoring methodology requires a minimum passing score for each question and a slightly higher average score than the per question minimum to pass.

- There are six Financial questions and six sets of criteria that are scored by rating the answers to one or more of the questions. For example, the question concerning registry operation costs requires consistency between the technical plans (described in the answers to the Technical & Operational questions) and the costs (described in the answers to the costs question).
- The scoring for each of the Financial criteria is 0, 1 or 2 points as described above with the exception of the Continuity question, for which up to 3 points are possible. All questions must receive at least a 1 or the application will fail the evaluation.
- The total financial score on the six criteria must be 8 or greater for the application to pass. That means the applicant can pass by:
 - Scoring a 3 on the continuity criteria, or
 - Scoring a 2 on any two financial criteria.
- Applications that do not pass Initial Evaluation can enter into an extended evaluation process as described in Module 2. The scoring is the same.

Note on April 2011 Discussion Draft: A number of the evaluation questions have been edited to provide more detail for applicants on the elements of a complete answer and to more clearly distinguish the components required for a score of 1 versus 2 (passing versus exceeding requirements). In most cases, the substance of the question and criteria has not changed significantly.

	#	Question	Included in public posting	Notes	Scoring Range	Criteria	Scoring
Applicant Information	1	Full legal name of the Applicant (the established entity that would enter into a Registry Agreement with ICANN)	Y	Responses to Questions 1 - 12 are required for a complete application. Responses are not scored.			
	2	Address of the principal place of business of the Applicant. This address will be used for contractual purposes. No Post Office boxes are allowed.	Y				
	3	Phone number for the Applicant's principal place of business.	Y				
	4	Fax number for the Applicant's principal place of business.	Y				
	5	Website or URL, if applicable.	Y				
Primary Contact for this Application	6	Name	Y	The primary contact will receive all communications regarding the application. Either the primary or the secondary contact may respond. In the event of a conflict, the communication received from the primary contact will be taken as authoritative. Both contacts listed should also be prepared to receive inquiries from the public.			
		Title	Y				
		Address	Y				
		Phone number	Y				
		Fax number	Y				
		Email address	Y				
Secondary Contact for this Application	7	Name	Y	The secondary contact will be copied on all communications regarding the application. Either the primary or the secondary contact may respond.			
		Title	Y				
		Address	Y				
		Phone number	Y				
		Fax number	Y				
		Email address	Y				
Proof of Legal Establishment	8	(a) Legal form of the Applicant. (e.g., limited liability partnership, corporation, non-profit institution).	Y				

	#	Question	Included in public posting	Notes	Scoring Range	Criteria	Scoring
		(b) State the specific national or other jurisdictional law that defines the type of entity identified in 8(a). Identify any relevant section references and provide a URL to the document if available online.	Y	<u>In the event of questions regarding proof of establishment, the applicant may be asked for additional details, such as the specific national or other law applying to this type of entity.</u>			
		(c) Attach evidence of the applicant's establishment as the type of entity identified in Question 8(a) above, in accordance with the applicable laws identified in Question 8(b).	Y	Applications without valid proof of legal establishment will not be evaluated further.			
	9	(a) If the applying entity is publicly traded, provide the exchange and symbol.	Y				
		(b) If the applying entity is a subsidiary, provide the parent company.	Y				
		(c) If the applying entity is a joint venture, list all joint venture partners.	Y				
	10	Business ID, Tax ID, VAT registration number, or equivalent of the Applicant.	N				
Applicant Background	11	(a) Enter the full name, contact information (permanent residence), and position of all directors (i.e., members of the applicant's Board of Directors, if applicable).	<u>Partial</u> N	<p><u>Applicants should be aware that the names and positions of the individuals listed in response to this question will be published as part of the application. The contact information listed for individuals is for identification purposes only and will not be published as part of the application.</u></p> <p>Background checks may be conducted on individuals named in the applicant's response to question 11. Any material misstatement or misrepresentation (or omission of material information) may cause the application to be rejected.</p> <p><u>The applicant certifies that it has obtained permission for the posting of the names and positions of individuals included in this application.</u></p>			
		(b) Enter the full name, contact information (permanent residence), and position of all officers and partners. Officers are high-level management officials of a corporation or business, for example, a CEO, vice president, secretary, chief financial officer. Partners would be listed in the context of a partnership or other such form of legal entity.	<u>Partial</u> N				

	#	Question	Included in public posting	Notes	Scoring Range	Criteria	Scoring
		(c) Enter the full name, contact information (permanent residence of individual or principal place of business of entity) and position of all shareholders holding at least 15% of shares, and percentage held by each.	<u>Partial</u> N				
		<u>(d) For an applying entity that does not have directors, officers, partners, or shareholders, enter the full name, contact information (permanent residence of individual or principal place of business of entity) and position of all individuals having direct responsibility for registry operations.</u>	<u>Partial</u>				
		<p>(e) Indicate whether the applicant or any of <u>the individuals, its directors, officers, partners, or shareholders</u> named above:</p> <p>i. within the past ten years, has been convicted of <u>any crime, a felony, or of a misdemeanor</u> related to financial or corporate governance activities, or has been judged by a court to have committed fraud or breach of fiduciary duty, or has been the subject of a judicial determination that is similar or related to any of these;</p> <p>ii. within the past ten years, has been disciplined by a government for conduct involving dishonesty or misuse of funds of others;</p> <p>iii. within the past ten years has been convicted of any willful tax-related fraud or willful evasion of tax liabilities;</p> <p>iv. within the past ten years has been convicted of perjury, forswearing, failing to cooperate with a law enforcement investigation, or making false statements to a law enforcement agency or representative;</p> <p><u>v. has ever been convicted of any crime involving the use of computers, telephony systems, telecommunications or the internet to facilitate the commission of crimes;</u></p> <p>vi. has ever been convicted of any crime involving the use of a weapon, force, or the threat of force;</p> <p>vii. has ever been convicted of any violent or sexual offense victimizing children, the elderly, or</p>	N	ICANN may deny an otherwise qualified application if eligibility criteria are not met. See section 1.2.1 of the guidebook.			

	#	Question	Included in public posting	Notes	Scoring Range	Criteria	Scoring
		<p>individuals with disabilities;</p> <p><u>viii. has ever been convicted of the illegal sale, manufacture, or distribution of pharmaceutical drugs, or been convicted or successfully extradited for any offense or substantially similar to any offense described in Article 3 of the United Nations Convention Against Illicit Traffic in Narcotic Drugs and Psychotropic Substances of 1988;</u></p> <p><u>ix. has ever been convicted or successfully extradited for any offense or substantially similar to any offense described in the United Nations Convention against Transnational Organized Crime (all Protocols);</u></p> <p>x. has been convicted of aiding, abetting, facilitating, enabling, conspiring to commit, or failing to report any of the listed crimes within the respective timeframes specified above;</p> <p>xi. has entered a guilty plea as part of a plea agreement or has a court case in any jurisdiction with a disposition of Adjudicated Guilty or Adjudication Withheld (or regional equivalents) for any of the listed crimes within the respective timeframes listed above;</p> <p>xii. is the subject of a disqualification imposed by ICANN and in effect at the time of this application.</p> <p>If any of the above events have occurred, please provide details.</p>					
		<p>(f) Indicate whether the applicant or any of <u>the individuals, its directors, officers, partners, or shareholders</u> named above have been involved in any decisions indicating that the applicant or individual named in the application was engaged in cybersquatting, as defined in the UDRP, ACPA, or other equivalent legislation.</p>	N	<p>ICANN may deny an otherwise qualified application if eligibility criteria are not met. See section 1.2.1 of the guidebook for details.</p>			

	#	Question	Included in public posting	Notes	Scoring Range	Criteria	Scoring
		(g) Disclose whether the applicant <u>or any of the individuals named above</u> has been involved in any administrative or other legal proceeding in which allegations of intellectual property infringement relating to registration or use of a domain name have been made. Provide an explanation related to each such instance.	N	ICANN may deny an otherwise qualified application if eligibility criteria are not met. See section 1.2.1 of the guidebook for details.			
		(h) Provide an explanation for any additional background information that may be found concerning the applicant or any individual named in the application.	N				
Evaluation Fee	12	(a) Enter the confirmation information for payment of the evaluation fee (e.g., wire transfer confirmation number).	N	The evaluation fee is paid in the form of a deposit at the time of user registration, and submission of the remaining amount at the time the full application is submitted. The information in question 12 is required for each payment.			
		(b) Payer name	N				
		(c) Payer address	N				
		(d) Wiring bank	N				
		(e) Bank address	N				
		(f) Wire date	N				
Applied-for gTLD string	13	Provide the applied-for gTLD string. If applying for an IDN, provide the U-label.	Y	Responses to Questions 13- 17 are not scored, but are used for database and validation purposes. The U-label is an IDNA-valid string of Unicode characters, including at least one non-ASCII character.			
	14	(a) If applying for an IDN, provide the A-label (beginning with "xn--").	Y				
		(b) If an IDN, provide the meaning, or restatement of the string in English, that is, a description of the literal meaning of the string in the opinion of the applicant.	Y				
		(c) If an IDN, provide the language of the label (both in English and as referenced by ISO-639-1).	Y				

	#	Question	Included in public posting	Notes	Scoring Range	Criteria	Scoring
		(d) If an IDN, provide the script of the label (both in English and as referenced by ISO 15924).	Y				
		(e) If an IDN, list all code points contained in the U-label according to Unicode form.	Y	For example, the string "HELLO" would be listed as U+0048 U+0065 U+006C U+006C U+006F.			
	15	(a) If an IDN, upload IDN tables for the proposed registry. An IDN table must include: <ol style="list-style-type: none"> 1. the applied-for gTLD string relevant to the tables, 2. the script or language designator (as defined in BCP 47), 3. table version number, 4. effective date (DD Month YYYY), and 5. contact name, email address, and phone number. <p>Submission of IDN tables in a standards-based format is encouraged.</p>	Y	In the case of an application for an IDN gTLD, IDN tables must be submitted for the language or script for the applied-for gTLD string. IDN tables must also be submitted for each language or script in which the applicant intends to offer IDN registrations at the second level.			
		(b) Describe the process used for development of the IDN tables submitted, including consultations and sources used.	Y				
		(c) List any variants to the applied-for gTLD string according to the relevant IDN tables.	Y	Variant TLD strings will not be delegated as a result of this application. Variant strings will be checked for consistency and, if the application is approved, will be entered on a Declared IDN Variants List to allow for future allocation once a variant management mechanism is established for the top level. Inclusion of variant TLD strings in this application is for information only and confers no right or claim to these strings upon the applicant.			
	16	If an IDN, d Describe the applicant's efforts to ensure that there are no known operational or rendering problems concerning the applied-for gTLD string. If such issues are known, describe steps that will be taken to mitigate these issues in software and other applications.	Y				
	17	OPTIONAL. Provide a representation of the label according to the International Phonetic Alphabet (http://www.langsci.ucl.ac.uk/ipa/).	Y	If provided, this information will be used as a guide to ICANN in communications regarding the application.			

	#	Question	Included in public posting	Notes	Scoring Range	Criteria	Scoring
Mission/Purpose	18	<u>(a)</u> Describe the mission/purpose of your proposed gTLD.	Y	<p>Applicants are encouraged to provide a thorough and detailed description to enable informed consultation and comment. Responses to this question are not scored. The information gathered in response to Question 18 is intended to inform the post-launch review of the New gTLD Program, from the perspective of assessing the relative costs and benefits achieved in the expanded gTLD space.</p> <p>For the application to be considered complete, answers to this section must be fulsome and sufficiently quantitative and detailed to inform future study on plans vs. results.</p> <p>The New gTLD Program will be reviewed, as specified in section 9.3 of the Affirmation of Commitments. This will include consideration of the extent to which the introduction or expansion of gTLDs has promoted competition, consumer trust and consumer choice, as well as effectiveness of (a) the application and evaluation process, and (b) safeguards put in place to mitigate issues involved in the introduction or expansion.</p> <p>The information gathered in this section will be one source of input to help inform this review. This information is not used as part of the evaluation or scoring, except to the extent that the information may overlap with questions or evaluation areas that are scored.</p> <p>An applicant wishing to designate this application as community-based should ensure that these responses are consistent with its responses for question 20 below.</p>			
		<p><u>(b)</u> How do you expect that your proposed gTLD will benefit registrants, Internet users, and others? Answers should address the following points:</p> <p><u>i.</u> What is the goal of your proposed gTLD in terms of areas of specialty.</p>	<u>Y</u>				

	#	Question	Included in public posting	Notes	Scoring Range	Criteria	Scoring
		<p><u>service levels, or reputation?</u></p> <p>ii. <u>What do you anticipate your proposed gTLD will add to the current space, in terms of competition, differentiation, or innovation?</u></p> <p>iii. <u>What goals does your proposed gTLD have in terms of user experience?</u></p> <p>iv. <u>Provide a complete description of the applicant's intended registration policies in support of the goals listed above.</u></p> <p>v. <u>Will your proposed gTLD impose any measures for protecting the privacy or confidential information of registrants or users? If so, please describe any such measures.</u></p> <p>vi. <u>Describe whether and in what ways outreach and communications will help to achieve your projected benefits.</u></p>					
	18	<p>(c) <u>What operating rules will you adopt to eliminate or minimize social costs (e.g., time or financial resource costs, as well as various types of consumer vulnerabilities)? What other steps will you take to minimize negative consequences/costs imposed upon consumers? Answers should address the following points:</u></p> <p>i. <u>How will multiple applications for a particular domain name be resolved, for example, by auction or on a first-come/first-serve basis?</u></p> <p>ii. <u>Explain any cost benefits for registrants you intend to implement (e.g., advantageous pricing, introductory discounts, bulk</u></p>	Y				

	#	Question	Included in public posting	Notes	Scoring Range	Criteria	Scoring
		<p><u>registration discounts).</u></p> <p>iii. <u>Do you intend to offer registrants the ability to obtain long term (or permanent) contracts for domain names? Do you intend to make contractual commitments to registrants regarding the magnitude of price escalation? If so, please describe your plans.</u></p> <p>iv. <u>Will you impose any constraints on parked sites, or sites that offer only advertising?</u></p>					
Community-based Designation	19	Is the application for a community-based TLD?	Y	<p>There is a presumption that the application is a standard application (as defined in the Applicant Guidebook) if this question is left unanswered.</p> <p>The applicant's designation as standard or community-based cannot be changed once the application is submitted.</p>			
	20	<p>(a) Provide the name and full description of the community that the applicant is committing to serve. In the event that this application is included in a community priority evaluation, it will be scored based on the community identified in response to this question. <u>The name of the community does not have to be formally adopted for the application to be designated as community-based.</u></p>	Y	<p>Descriptions should include:</p> <ul style="list-style-type: none"> • How the community is delineated from Internet users generally. Such descriptions may include, but are not limited to, the following: membership, registration, or licensing processes, operation in a particular industry, use of a language. • How the community is structured and organized. For a community consisting of an alliance of groups, details about the constituent parts are required. • When the community was established, including the date(s) of formal organization, if any, as well as a description of community activities to date. • The current estimated size of the community, both as to membership and geographic extent. 		<p>Responses to Question 20 will be regarded as firm commitments to the specified community and reflected in the Registry Agreement, provided the application is successful.</p> <p>Responses are not scored in the Initial Evaluation. Responses may be scored in a community priority evaluation, if applicable. Criteria and scoring methodology for the community priority evaluation are described in Module 4 of the Applicant Guidebook.</p>	

	#	Question	Included in public posting	Notes	Scoring Range	Criteria	Scoring
		(b) Explain the applicant's relationship to the community identified in 20(a).	Y	<p>Explanations should clearly state:</p> <ul style="list-style-type: none"> • Relations to any community organizations. • Relations to the community and its constituent parts/groups. • Accountability mechanisms of the applicant to the community. 			
		(c) Provide a description of the community-based purpose of the applied-for gTLD.	Y	<p>Descriptions should include:</p> <ul style="list-style-type: none"> • Intended registrants in the TLD. • Intended end-users of the TLD. • Related activities the applicant has carried out or intends to carry out in service of this purpose. • Explanation of how the purpose is of a lasting nature. 			
		(d) Explain the relationship between the applied-for gTLD string and the community identified in 20(a).	Y	<p>Explanations should clearly state:</p> <ul style="list-style-type: none"> • relationship to the established name, if any, of the community. • relationship to the identification of community members. • any connotations the string may have beyond the community. 			
		(e) Provide a complete description of the applicant's intended registration policies in support of the community-based purpose of the applied-for gTLD. Policies and enforcement mechanisms are expected to constitute a coherent set.	Y	<p>Descriptions should include proposed policies, if any, on the following:</p> <ul style="list-style-type: none"> • Eligibility: who is eligible to register a second-level name in the gTLD, and how will eligibility be determined. • Name selection: what types of second-level names may be registered in the gTLD. • Content/Use: what restrictions, if any, the registry operator will impose on how a registrant may use its registered name. • Enforcement: what investigation practices and mechanisms exist to enforce the policies above, what resources are allocated for enforcement, and what appeal mechanisms are available to registrants. 			

	#	Question	Included in public posting	Notes	Scoring Range	Criteria	Scoring
		(f) Attach any written endorsements for the application from <u>established</u> institutions/ groups representative of the community identified in 20(a). An applicant may submit <u>written</u> endorsements by multiple institutions/ groups , if relevant to the community.	Y	<p><u>At least one such endorsement is required for a complete application. The form and content of the endorsement are at the discretion of the party providing the endorsement; however, the letter must include an express statement support for the application as submitted and the contact information of the entity providing the endorsement.</u></p> <p>Endorsements from institutions/groups not mentioned in the response to 20(b) should be accompanied by a clear description of each such institution's/group's relationship to the community.</p>			
Geographic_Names	21	(a) Is the application for a geographic name?	Y	<p>An applied-for gTLD string is considered a geographic name requiring government support if it is: (a) the capital city name of a country or territory listed in the ISO 3166-1 standard; (b) a city name, where it is clear from statements in the application that the applicant intends to use the gTLD for purposes associated with the city name; (c) a sub-national place name listed in the ISO 3166-2 standard; or (d) a name listed as a UNESCO region or appearing on the "Composition of macro geographic (continental) or regions, geographic sub-regions, and selected economic and other groupings" list. See Module 2 for complete definitions and criteria.</p> <p>An application for a country or territory name, as defined in the Applicant Guidebook, will not be approved.</p>			
		(b) If a geographic name, attach documentation of support or non-objection from all relevant governments or public authorities.	N	See the documentation requirements in Module 2 of the Applicant Guidebook.			
Protection of Geographic Names	22	Describe proposed measures for protection of geographic names at the second and other levels in the applied-for gTLD. This should include any applicable rules and procedures for reservation and/or release of such names.	Y	<p>Applicants should consider and describe how they will incorporate Governmental Advisory Committee (GAC) advice in their management of second-level domain name registrations. See "Principles regarding New gTLDs" at http://gac.icann.org/gac-documentshttp://gac.icann.org/testing-gac.</p> <p>For reference, applicants may draw on existing methodology developed for the</p>			

	#	Question	Included in public posting	Notes	Scoring Range	Criteria	Scoring
				<p>reservation and release of country names in the .INFO top-level domain. See http://gac.icann.org/system/files/dotinfocircular_0.pdf.</p> <p>Proposed measures will be posted for public comment as part of the application.</p>			
Registry Services	23	<p>Provide name and full description of all the Registry Services to be provided. Descriptions should include both technical and business components of each proposed service, and address any potential security or stability concerns.</p> <p>The following registry services are customary services offered by a registry operator:</p> <p>A. Receipt of data from registrars concerning registration of domain names and name servers.</p> <p>B. Dissemination of TLD zone files.</p> <p>C. Dissemination of contact or other information concerning domain name registrations (Whois service).</p> <p>D. Internationalized Domain Names, where offered.</p> <p>E. DNS Security Extensions (DNSSEC).</p> <p>The applicant must describe whether any of these registry services are intended to be offered in a manner unique to the TLD.</p> <p>Additional proposed registry services that are unique to the registry must also be described.</p>	Y	<p>Registry Services are defined as the following: (1) operations of the Registry critical to the following tasks: (i) the receipt of data from registrars concerning registrations of domain names and name servers; (ii) provision to registrars of status information relating to the zone servers for the TLD; (iii) dissemination of TLD zone files; (iv) operation of the Registry zone servers; and (v) dissemination of contact and other information concerning domain name server registrations in the TLD as required by the Registry Agreement; and (2) other products or services that the Registry Operator is required to provide because of the establishment of a Consensus Policy; (3) any other products or services that only a Registry Operator is capable of providing, by reason of its designation as the Registry Operator. A full definition of Registry Services can be found at http://www.icann.org/en/registries/rsep/rsep.html.</p> <p>Security: For purposes of this Applicant Guidebook, an effect on security by the proposed Registry Service means (1) the unauthorized disclosure, alteration, insertion or destruction of Registry Data, or (2) the unauthorized access to or disclosure of information or resources on the Internet by systems operating in accordance with applicable standards.</p> <p>Stability: For purposes of this Applicant Guidebook, an effect on stability shall mean that the proposed Registry Service (1) is not compliant with applicable relevant standards that are authoritative and published by a well-established, recognized and authoritative standards body, such as relevant Standards-Track or Best Current</p>		<p>Responses are not scored. A preliminary assessment will be made to determine if there are potential security or stability issues with any of the applicant's proposed Registry Services. If any such issues are identified, the application will be referred for an extended review. See the description of the Registry Services review process in Module 2 of the Applicant Guidebook. Any information contained in the application may be considered as part of the Registry Services review. If its application is approved, applicant may engage in only those registry services defined in the application, unless a new request is submitted to ICANN in accordance with the Registry Agreement.</p>

	#	Question	Included in public posting	Notes	Scoring Range	Criteria	Scoring
						described in Question 27.	
	26	<p>Whois: describe</p> <ul style="list-style-type: none"> • how the applicant will comply with ICANN's Registry Publicly Available Registration Data (Whois) specifications for data objects, bulk access, and lookups as defined in Specifications 4 and 106 to the Registry Agreement; • Describe how the Applicant's Registry Publicly Available Registration Data (Whois) service will comply with RFC 3912; and • Describe resourcing plans for the initial implementation of, and ongoing maintenance for, this aspect of the criteria (number and description of personnel roles allocated to this area). <p><u>A complete answer should include, but is not limited to:</u></p> <ul style="list-style-type: none"> • <u>A high-level Whois system description;</u> • <u>Relevant network diagram(s);</u> • <u>Number of servers;</u> • <u>Description of interconnectivity with other registry systems; and</u> • <u>Frequency of synchronization between</u> 	Y	<p>Note: A searchable Whois service as included in some current registry agreements (.ASIA, .MOBI, .POST) was previously included as a requirement in Specification 4 of the draft registry agreement, for community discussion. As an alternative to a uniform requirement, a searchable Whois service has been included provisionally here as an optional service, for which an applicant could receive a higher score. Additional community input is sought on this option, which may provide an additional tool to those involved in identifying and confronting malicious conduct in the namespace, providing that the methods and standards used to perform searches have a control structure designed to reduce the malicious use of the searching capability itself. As a point of reference, .NAME (http://www.icann.org/en/lds/agreements/name/appendix-05-15aug07.htm) has had an "extensive WHOIS" searching function</p>	0-2	<p>Complete answer demonstrates:</p> <p>(1) complete knowledge and understanding of this aspect of registry technical requirements, <u>(one of the five critical registry functions);</u></p> <p>(2) a technical plan scope/scale consistent with the overall business approach and planned size of the registry; and</p> <p>(3) a technical plan that is adequately resourced in the planned costs detailed in the financial section; <u>(4) ability to comply with relevant RFCs;</u></p> <p><u>(5) evidence of compliance with Specifications 4 and 10 to the Registry Agreement; and</u></p> <p><u>(6) if applicable, a well-documented implementation of Searchable Whois.-</u></p>	<p>2 – exceeds requirements: Response <u>meets all the attributes for a score of 1 and includes</u></p> <p>(a) — highly developed and detailed plans to ensure compliance with protocols and required performance specifications;</p> <p>(b) — full interplay and consistency of technical and business requirements; evidence of technical resources already on hand or fully committed; and</p> <p><u>(1) A Searchable Whois service:</u> Whois service includes web-based search capabilities by domain name, registrant name, postal address, contact names, registrar IDs, and Internet Protocol addresses without arbitrary limit. Boolean search capabilities may be offered. The service <u>shall include appropriate precautions to avoid abuse of this feature (e.g., provisions to ensure that limiting access is limited to legitimate authorized users), and is in compliance with any applicable privacy laws or policies.</u></p>

	#	Question	Included in public posting	Notes	Scoring Range	Criteria	Scoring
		<p><u>servers.</u></p> <p><u>To be eligible for a score of 2, answers must also include:</u></p> <ul style="list-style-type: none"> <u>• Provision for Searchable Whois capabilities; and</u> <u>• A description of potential forms of abuse of this feature, how these risks will be mitigated, and the basis for these descriptions.</u> <p><u>A complete answer is expected to be approximately 2 to 5 pages.</u></p>		<p>available since its inception. The searching function is based on a tiered access model that helps reduce the potential malicious use of the function. Comment is invited in particular on how this type of service could help address certain types of malicious conduct, and on alternate solutions whereby use of Whois data for registered names can be an effective tool in the context of mitigating malicious conduct in new gTLDs. If the provision is supported, suggestions on development of a uniform technical specification for a search function are also sought.</p> <p><u>The Registry Agreement (Specification 4) requires provision of Whois lookup services for all names registered in the TLD. This is a minimum requirement. Provision for Searchable Whois as defined in the scoring column is a requirement for achieving a score of 2 points.</u></p>			<p>1 - meets requirements: Response includes</p> <ol style="list-style-type: none"> (1) adequate <u>description of Whois service that level of detail to substantially demonstrates the applicant's</u> capability and knowledge required to meet this element; (2) <u>Evidence that</u> Whois services <u>are</u> compliant with RFCs, <u>Specifications 4 and 10 to the Registry Agreement,</u> and <u>any other</u> contractual requirements <u>including and provide</u> all necessary functionalities for user interface; (3) Whois capabilities commensurate with the <u>technical, operational, and financial</u>overall business approach as described in the application; and (4) demonstrates <u>an adequate level of resources</u> that technical resources required to carry through the plans for this element are already on hand or readily available <u>to carry out this function.</u> <p>0 - fails requirements: Does not meet all the requirements to score 1.</p>

	#	Question	Included in public posting	Notes	Scoring Range	Criteria	Scoring
	27	<p>Registration Life Cycle: provide a detailed description of the proposed registration lifecycle for domain names in the proposed gTLD. The description must:</p> <ul style="list-style-type: none"> • explain the various registration states as well as the criteria and procedures that are used to change state; • It must describe the typical registration lifecycle of create/update/delete and all intervening steps such as pending, locked, expired, and transferred that may apply; • <u>clearly explain</u> Any time elements that are involved - for instance details of add-grace or redemption grace periods, or notice periods for renewals or transfers; and must also be clearly explained • describe resourcing plans <u>for the implementation of, and ongoing maintenance for, this aspect of the criteria</u> (number and description of personnel roles allocated to this area). <p><u>The description of the registration lifecycle should be supplemented by the inclusion of a state diagram, which captures definitions, explanations of trigger points, and transitions from state to state.</u></p> <p><u>If applicable, provide definitions for aspects of the registration lifecycle that are not covered by standard EPP RFCs.</u></p> <p><u>A complete answer is expected to be approximately 3 to 5 pages.</u></p>	Y		0-1	<p>Complete answer demonstrates:</p> <p>(1) complete knowledge and understanding of registration lifecycles and states; and</p> <p>(2) consistency with any specific commitments made to registrants as adapted to the overall business approach for the proposed gTLD; and</p> <p><u>(3) the ability to comply with relevant RFCs.-</u></p>	<p>1 - meets requirements: Response includes</p> <p>(1) <u>An adequate description of the registration lifecycle that substantially demonstrates the applicant's capabilities and knowledge required to meet this element;</u></p> <p>(2) <u>Details of a fully Evidence of highly developed registration life cycle with definition of various registration states, and transition between the states, and trigger points;</u></p> <p>(3) Consistency of A registration lifecycle <u>that is consistent</u> with any commitments to registrants and with technical, <u>operational</u>, and financial plans <u>described in the application;</u> and</p> <p>(4) Demonstrates <u>an adequate level of that technical resources required to carry through the plans for this element that are</u> already on hand or <u>committed or</u> readily available <u>to carry out this function.</u></p> <p>0 - fails requirements: Does not meet all the requirements to score 1.</p>

	#	Question	Included in public posting	Notes	Scoring Range	Criteria	Scoring
	28	<p>Abuse Prevention and Mitigation: Applicants should describe the proposed policies and procedures to minimize abusive registrations and other activities that have a negative impact on Internet users. <u>A complete Answers should include, but is not limited to:</u></p> <ul style="list-style-type: none"> • Safeguards the applicant will implement at the time of registration, policies to reduce opportunities for abusive behaviors using registered domain names in the TLD, and policies for handling complaints regarding abuse. Each registry operator will be required <u>An implementation plan</u> to establish and publish on its website a single abuse point of contact responsible for addressing matters requiring expedited attention and providing a timely response to abuse complaints concerning all names registered in the TLD through all registrars of record, including those involving a reseller; • <u>Policies for handling complaints regarding abuse;</u> • <u>A description of rapid takedown or suspension systems that will be implemented.</u> Proposed measures for management and removal of orphan glue records for names removed from the zone; <u>and</u> • <u>Resourcing plans for the initial implementation of, and ongoing maintenance for, this aspect of the criteria (number and description of description of personnel roles allocated to this area).</u> <p><u>To be eligible for a score of 2, answers must include measures to promote Whois accuracy as well as measures from one other area as described below.</u></p> <ul style="list-style-type: none"> • <u>Measures to promote Whois accuracy (can be undertaken by the registry directly or by registrars via requirements in the Registry-Registrar Agreement (RRA)) may include, but are not limited to:</u> <ul style="list-style-type: none"> ○ <u>Authentication of registrant information as complete and accurate at time of registration.</u> <u>Measures to accomplish this</u> 	Y		0- 2 ¹	<p>Complete answer demonstrates:</p> <ol style="list-style-type: none"> (1) Comprehensive abuse policies, <u>which include clear definitions of what constitutes abuse in the TLD,</u> and procedures that will effectively minimize potential for abuse in the TLD; (2) Plans are adequately resourced in the planned costs detailed in the financial section; (3) Policies and procedures identify and address the abusive use of registered names at startup and on an ongoing basis; and (4) When executed in accordance with the Registry Agreement, plans will result in compliance with contractual requirements. 	<p><u>2 – exceeds requirements: Response meets all the attributes for a score of 1 and includes:</u></p> <ol style="list-style-type: none"> (1) <u>Details of measures to promote Whois accuracy, using measures specified here or other measures commensurate in their effectiveness; and</u> (2) <u>Measures from at least one additional area to be eligible for 2 points as described in the question.</u> <p>1 - meets requirements Response includes:</p> <ol style="list-style-type: none"> (1) <u>An adequate description of abuse prevention and mitigation policies and procedures that substantially demonstrates the applicant's capabilities and knowledge required to meet this element;</u> (2) <u>Details of Evidence of highly well-developed abuse policies and procedures;</u> (3) Plans are sufficient to result in compliance with contractual requirements; (4) Plans are consistent with overall business <u>with the technical, operational, and financial</u> approach <u>described in the application,</u> and any commitments made to registrants; and (5) <u>Demonstrates an adequate level of resources that are on hand, committed, or readily available to carry out this function.</u> <p>0 – fails requirements</p> <p>Does not meet all the requirements to score 1.</p>

General Comments (Notes Regarding Assumptions Used, Significant Variances Between Years, etc.):

Comments regarding how the Applicant plans to fund operations:

General Comments regarding contingencies:

General Instructions

The application process requires the applicant to submit two Financial Projections. The first projection (Template 1) should show the revenues and costs associated with the Most Likely scenario expected. This projection should include the number of registrations, the registration fee, and all costs and capital expenditures expected during the start-up period and during the first three years of operations. Template 1 relates to Question 46 (Projections Template) in the application.

We also ask applicants to show as a separate projection (Template 2) the revenues and costs associated with a realistic Worst Case Scenario assuming that the registry does not succeed. Template 2 relates to Question 49 (Contingency Planning) in the application.

For each Projection prepared, please include Comments and Notes on the bottom of the projection (in the area provided) to provide those reviewing these projections with information regarding:
1) Assumptions Used, Significant Variances in Revenues, Costs, and Capital Expenditures from year-to-year;
2) How you plan to fund operations;
3) Contingency Planning

Include Comments that will assist those reviewing this projection in understanding your business approach and any expected trends or variations.

The Start-up Period is for Costs and Capital Expenditures only; there should be no revenue projections input to this column. Please describe the total period of time this is expected to cover.

Marketing Costs represent the amount spent on advertising, promotions, and other marketing activity. This amount should not include Labor Costs which is included in "Marketing Labor" above.

Variable expenses include labor and other costs that are not fixed in nature (expenditures that fluctuate in relationship with increases or decreases in production or level of operations).

Fixed costs are expenditures that do not generally fluctuate in relationship with increases or decreases in production or level of operations. Such costs are generally necessary to be incurred in order to operate the base line operations of the organization or are expected to be incurred based on contractual commitments.

Equals the operational costs for the projected 3 years (columns H, I, and J)

Applicant should list expected useful lives of capital expenditures used and determine annual depreciation.

Please describe "other" capital expenditures and their useful lives for depreciation.

Applicant must prepare projected assets & liabilities for the Start Up and subsequent 3-year period

Cash Flow is driven by Projected Net Operations (Sec. I), Projected Capital

Depreciation should equal total depreciation expense from Sec. I.

Applicant should describe sources of debt and equity funding and provide evidence thereof (e.g., letter of commitment).

Include explanations for any significant variances between years (or expected in years beyond the timeframe of the template) in any category of costing or funding.

TLD Applicant -- Financial Projections : Sample

Comments / Notes

In local currency (unless noted otherwise)		Live / Operational				Provide name of local currency used.
Sec.	Reference / Formula	Start-up Costs	Year 1	Year 2	Year 3	
I) Projected Revenue & Operating Cost						
A) Forecasted registration		-	62,000	80,600	104,780	Registration was forecasted based on recent market surveys. We do not anticipate significant increases in Registration Fees subsequent to year 3.
B) Registration fee		\$ -	\$ 5.00	\$ 5.50	\$ 6.05	
C) Registration revenue	A * B	-	310,000	443,300	633,919	
D) Other revenue		-	35,000	48,000	62,000	
E) Total Revenue		-	345,000	491,300	695,919	Other revenues represent advertising revenue from display ads on our website.
Projected Operating Cost						
F) Labor:						
i) Marketing Labor		25,000	66,000	72,000	81,000	Costs are further detailed and explained in response to question 47.
ii) Customer Support Labor		5,000	68,000	71,000	74,000	
iii) Technical Labor		32,000	45,000	47,000	49,000	
G) Marketing		40,000	44,000	26,400	31,680	
H) Facilities		7,000	10,000	12,000	14,400	
I) General & Administrative		14,000	112,000	122,500	136,000	
J) Interest and Taxes		27,500	29,000	29,800	30,760	
K) Depreciation		51,933	69,333	85,466	59,733	Depreciation reflects total projected capital expenditures (\$173k) divided by useful lives: Start up = \$130k/3 + \$43k/5 = \$51,933 Subsequent depreciation amounts reflect previous year's depreciation expense plus depreciation for additional capital expenditures over appropriate useful lives.
L) Outsourcing Operating Costs, if any (list the type of activities being outsourced):						Provide a list and associated cost for each outsourced function.
i) Hot site maintenance		5,000	7,500	7,500	7,500	Outsourcing hot site to ABC Company, cost based on number of servers hosted and customer support
ii) Critical Registry Functions		32,000	37,500	41,000	43,000	Outsourced to critical registry and other functions to ABC registry. Costs are based on expected domains and queries
iii) (list type of activities being outsourced)		-	-	-	-	Provide a description of the outsourced activities and how costs were determined
iv) (list type of activities being outsourced)		-	-	-	-	Provide a description of the outsourced activities and how costs were determined
v) (list type of activities being outsourced)		-	-	-	-	Provide a description of the outsourced activities and how costs were determined
vi) (list type of activities being outsourced)		-	-	-	-	Provide a description of the outsourced activities and how costs were determined
M) Other Operating Costs		12,200	18,000	21,600	25,920	
NM) Total Operating Costs		251,633	506,333	536,266	552,993	
Projected Net Income Operation (Revenues less Operating Costs)	E - NM	(251,633)	(161,333)	(44,966)	142,926	
IIa) Break out of Fixed and Variable Operating Costs						
A) Total Variable Operating Costs		124,000	232,750	239,930	260,416	Variable Costs: -Start Up equals all labor plus 75% of marketing. -Years 1 through 3 equal 75% of all labor plus 50% of Marketing, and 30% of G&A and Other costs
B) Total Fixed Operating Costs		127,633	273,583	296,336	292,577	Fixed Costs: equals Total Costs less Variable Costs
C) Total Operating Costs	= Sec. I) NM CHECK	251,633	506,333	536,266	552,993	Check that II) C equals I) N.
IIb) Break out of Critical Function Operating Costs						
A) Operation of SRS		5,000	5,000	5,500	6,050	Note: ICANN is working on cost model that will be provided at a later date Commensurate with Question 24 Commensurate with Question 26 Commensurate with Question 35 Commensurate with Question 38 Commensurate with Question 43
B) Provision of Whois		5,000	6,000	6,600	7,260	
C) DNS Resolution for Registered Domain Names		5,000	7,000	7,700	8,470	
D) Registry Data Escrow		5,000	8,000	8,800	9,680	
E) Maintenance of Zone in accordance with DNSSEC		5,000	9,000	9,900	10,890	
F) Other		-	-	-	-	
G) Total Critical Function Costs		25,000	35,000	38,500	42,350	
H) 3-year Total		115,850				
III) Projected Capital Expenditures						
A) Hardware		98,000	21,000	16,000	58,000	-Hardware & Software have a useful life of 3 years
B) Software		32,000	18,000	24,000	11,000	
C) Furniture & Other Equipment		43,000	22,000	14,000	16,000	-Furniture & other equipment have a useful life of 5 years
D) Outsourcing Capital Expenditures, if any (list the type of capital expenditures)		-	-	-	-	List and describe each identifiable type of outsourcing.
i)		-	-	-	-	List and describe each identifiable type of outsourcing.
ii)		-	-	-	-	List and describe each identifiable type of outsourcing.
iii)		-	-	-	-	List and describe each identifiable type of outsourcing.
iv)		-	-	-	-	List and describe each identifiable type of outsourcing.
v)		-	-	-	-	List and describe each identifiable type of outsourcing.
vi)		-	-	-	-	List and describe each identifiable type of outsourcing.
EB) Other Capital Expenditures		-	-	-	-	
FE) Total Capital Expenditures		173,000	61,000	54,000	85,000	
IV) Projected Assets & Liabilities						
A) Cash		705,300	556,300	578,600	784,600	
B) Accounts receivable		-	70,000	106,000	160,000	
C) Other current assets		-	40,000	60,000	80,000

ii) Contingent and/or committed but not yet on-hand						
B) Equity:						
i) On-hand at time of application						
ii) Contingent and/or committed but not yet on-hand						
C) Total Sources of funds		1,000,000				
General Comments (Notes Regarding Assumptions Used, Significant Variances Between Years, etc.):						
We expect the number of registrations to grow at approximately 30% per year with an increase in the registration fee of \$1 per year for the first three years. We anticipate our costs will increase at a controlled pace over the first three years except for marketing costs which will be higher in the start-up and first year as we establish our brand name and work to increase registrations. Our capital expenditures will be greatest in the start-up phase and then our need to invest in computer hardware and software will level off after the start-up period. Our investment in Furniture and Equipment will be greatest in the start-up period as we build our infrastructure and then decrease in the following periods.						
Comments regarding how the Applicant plans to Fund operations:						
We have recently negotiated a line of credit with XYZ Bank (a copy of the fully executed line of credit agreement has been included with our application) and this funding will allow us to purchase necessary equipment and pay for employees and other Operating Costs during our start-up period and the first few years of operations. We expect that our business operation will be self funded (i.e., revenue from operations will cover all anticipated costs and capital expenditures) by the second half of our second year in operation; we also expect to become profitable with positive cash flow in year three.						
General Comments regarding contingencies:						
Although we expect to be cash flow positive by the end of year 2, the recently negotiated line of credit will cover our operating costs for the first 4 years of operation if necessary. We have also entered into an agreement with XYZ Co. to assume our registrants should our business model not have the ability to sustain itself in future years. Agreement with XYZ Co. has been included with our application.
